PROFILE

Full Stack AI Engineer with hands-on experience building scalable web applications using React.js, Next.js, Node.js, and MongoDB. Completed a 9-month internship at Shakktii AI, strengthening expertise in REST API development, database schema optimization, and AI API integration. Focused on writing clean, maintainable code and delivering practical, real-world solutions.

INTERNSHIP EXPERIENCE

Full Stack Developer Intern *Jan 2026 – sept 2026*
Shakktii AI, Pune

- Contributed to the development of MockMingle, an AI-powered EdTech platform serving 500+ users.
- Engineered 15+ scalable full-stack modules improving backend maintainability and reducing API response latency by 25%.
- Designed and maintained 10+ RESTful APIs for authentication, interview sessions, and backend systems.
- Collaborated in Agile workflows using GitHub and CI/CD pipelines, reducing debugging time by 30%.

EDUCATION

Bachelor of Technology (B.Tech) in Computer Engineering Aug 2023 – Jul 2026
MIT-WPU Pune CGPA: 7.12

SKILLS

Programming	JavaScript, TypeScript, Python, Java, C, C++
Frontend	React.js, Next.js, HTML, CSS, Tailwind CSS, shadcn/ui
Backend	Node.js, Express.js, REST API Development, Authentication (JWT, bcrypt), NextAuth
Databases	MongoDB, PostgreSQL, MySQL, Prisma ORM
AI & APIs	OpenAI API, LangChain, RAG architecture, Prompt Engineering, AI API Integration
Tools	Git, GitHub, Postman, VS Code, Firebase, Vercel, Render, Docker, Linux CLI, CI/CD
Concepts	Full Stack Development, REST Architecture, DBMS, Agile Development, Debugging

ACHIEVEMENTS

- Patent Published: "A Method for Operating a **Touchless Mouse** Using Gesture Recognition to Enhance User Interaction and Improve Accessibility" under the field of Computer Science.
- Secured **Silver Medal** in Visualathon for **redesigning the IRCTC Interface** with improved user experience, usability, and color-coded train categorization.
- Volunteered as Marketing Member at **RIDE (Research, Innovation, Design, Entrepreneurship)** supporting outreach and promotion activities.

PROJECTS

AI Quiz Generation Website *GroqAI, TypeScript, Node.js, Next.js*
https://quizlab.vercel.app

- Developed an AI-powered quiz generation platform using GroqAI API and prompt engineering to generate quizzes in real time.
- Integrated secure REST APIs for quiz generation, answer validation, and authentication using NextAuth.
- Optimized database operations using Prisma ORM and PostgreSQL for scalable data management.
- Crafted responsive UI using Tailwind CSS and shadcn/ui and deployed the application on Vercel.

Hardware Shop Management System *Electron, Next.js, TypeScript, PostgreSQL*

- Built a full-stack desktop POS application using Electron and Next.js with a complete inventory, billing, and supplier management system for a hardware shop.
- Implemented multi-tier pricing for Regular, Electrician, and Plumber customer types with credit management and partial payment tracking.
- Designed relational database schema using Prisma ORM and PostgreSQL with optimized indexes for inventory transactions and payment history.
- Developed a reporting and analytics dashboard with sales, profit margin, and top-product visualizations using Recharts, with PDF and Excel export support.
